- High efficiency
- Certified by IBR

Product details

Wood Cleaner may be used for cleaning of lye treated, soaped, and oiled as well as lacquered surfaces. Furthermore, it is well suited for cleaning of unfinished wall- and ceiling panels, furniture etc.

How to...

Oiled woodwork and parquet floors

1. 150 ml Wood Cleaner is mixed into 5 l lukewarm water. Clean floor – leave solution on the floor briefly in order to dissolve dirt.
2. Scrub with brush or pad manually or with floor machine if very dirty. Wipe clean with mop or cloth. Repeat if floor is extremely dirty.
3. In areas with little wear, clean with Natural Soap. This brings back protective soap film against dirt.
4. In areas with more wear, it is recommended to maintain with Maintenance Paste/Oil.

Technical data

Product

properties

pH-value: 10,5

Declaration: Water, <5% non-ionic surfactants, <5% anionic surfactants.

Form: Liquid

Flash point: >100

Density: 1,04

Coverage: 200-300 m²/litre
